ADTRAN

Transferring a Caller to Voicemail with the NetVanta 7000 Series

Using ADTRAN IP 700 Series Phones

1. With an answered call active, Press Transfer
2. Enter the System Leave Voicemail Extension (extension 8504 by default).
3. Enter the extension of the mailbox to which you wish to transfer the caller.
4. Press Transfer.

Using ADTRAN-approved Polycom IP Phones

1. With an answered call active, Press More.
2. Press SendVM (softkey).
3. Enter the extension of the mailbox to which you wish to transfer the caller.
4. Press Enter to complete the transfer.
